

MARGARETTA MOBILE HOME PARK CUSTOMERS ONLY!

DATE/TIME: 08/31/2024 @ 9:30 am

As a customer of The York Water Company, you were notified on 08/27/2024 of a potential problem with our drinking water and you were advised to boil the water for certain uses or use bottled water. **We are pleased to report that our testing has indicated that the water is safe to consume.**

What Happened?

There was no problem and all tests indicated that the water was always safe to drink. The Boil Water Notice was issued as a precaution.

We apologize for any inconvenience and thank you for your patience.

If you have air or discoloration in your water you should flush the water lines in your house to help clear them out. Start with a faucet furthest from your water meter. Run hot water through each indoor faucet until you notice a change in water temperature. Remove the aerator before flushing kitchen and bathroom sink faucets. Run enough hot water to flush the hot water heater. If you have an ice maker, empty the ice tray several times to ensure that the line in the ice maker is flushed.
